Incompatibility (Materials to Avoid) – Oxidizing agents Hazardous Decomposition Products or By-products – Toxic chemicals may be formed in small amounts. Hazardous May Occur Conditions to Avoid – None Known Polymerization Will not Occur X SECTION VI – HEALTH HAZARDS Route(s) of Entry: Inhalation? X Skin? X Ingestion? X Eyes? X Health Hazards (1. Acute and 2. Chronic) – 1. ACUTE: Harmful if swallowed. Eye and skin irritant. 2. CHRONIC: None Known. Chemical Listed as Carcinogen National Toxicology I.A.R.C. OSHA or Potential Carcinogen Program No X Monographs No X No X Signs and Symptoms of Exposure – Skin: May cause irritation and defatting of skin on prolonged contact. Eyes: Burning and irritation. High vapor concentration may result in depression, headache, dizziness, nausea. Ingestion: Vomitting which could cause aspiration pneumonitis. Emergency and First Aid Procedures – EYE CONTACT: Flush with large quantities of water, seek medical attention if irritation occurs. INHALATION: Remove to fresh air and provide oxygen if breathing is difficult. INGESTION: Seek medical attention. SECTION VII – PRECAUTIONS FOR SAFE HANDLING AND USE Steps to be Taken in Case Material is Released or Spilled – Mop up or otherwise absorb and hold for disposal. Waste Disposal Method – Do not puncture or incinerate containers. Dispose of in accordance with local, state and federal regulations. Precautions to be Taken in Handling and Storing – Avoid breathing vapors. Keep out of reach of children. For use by trained personnel only. Use with adequate ventilation. Store as level 2 Aerosol (NFPA 30 B)	,		Conditions to Avo	id – None Kno	own
